

OUT THERE

HOW TO SURVIVE 2012

SOME EXCERPTS FROM THE BOOK:

CAGES

It is possible to get out of a trap. However, in order to break out of prison, one must first confess to living in a prison

Dr Wilhelm Reich

The Cage is what we have chosen to be locked up in to protect us from what's Out There. How did Out There get to be so scary? Every day, out there, they tell you how scary it is. It is violence. It is murder. It is helplessness. There are victims; Always victims. There is The News. All of that is out there. You need to protect yourself from all that. You'll walk into that open cage and pull the door shut. If anything comes too close you'll lock it.

STYLES IN CAGES

A cage can be constructed following a number of major themes, themes such as the Career cage, the Traditional Value Cage, the Old Hippy style, Eco-style, the Ageing Cage, the Party Cage, the Religion Cage etc. etc.

GRAVITY

Gravity is stored inertia. At the present time on Earth you could say there's too much gravity. Things look pretty serious, dense, and heavy.

Because we are receivers for free-flowing information from the Universe it is our role to creatively and harmoniously direct and distribute this information. Instead we tend to squander the flow, like our water, we put it into non-sustainable life styles, non-shareable and competitive. The way most people 'do' sex is an example of this non-shared squandering of Universal information.

WHO'S IN CONTROL?

The Universe demonstrates both Chaos and Order. Chaos, chaotic – these are words that can induce panic in our lives: loss of control, loss of meaning..... A more relaxed way of thinking about Chaos is as a state of infinite potentialities. When potentialities fall into the patterning they become order. So, by Chaos and Order we can mean Infinite Potentialities and Patterning. Potential into Pattern is the force of creation in which we all partake.

LOVE IS JUST ANOTHER EMOTION?

It is time to let go of the old illusions of attachment, worth, belonging, emptiness that are tunnelled into the concept of the soul-mate, the other half, completion – all targeted at another person, the One for You.

HOW TO SURVIVE 2012

2012 the date that marks the end of the Mayan calendar is just a few years away. What it signifies is open to interpretation. To some it points to the End of Time, a dimensional shift that involves the entire planet and everything on it. A vast astronomical alignment involving more than just our solar system and its planets is certainly implied. This alignment will flow through to the centre of our galaxy and provide the pathway into other dimensional realities.

CREATING A NEW PATTERN FOR LIVING

In order to be consciously aware of the need for co-creating a new way of living it is necessary to understand what the old way is. We need to know what our apparently freely chosen cages connect us with. The simple way of putting it is that we live within The System. And what is The System? It covers birth, education, work, family, health, politics, death and it is called Economics. Wayne Dyer in 'Manifest your own Destiny' coined the wonderfully apt term 'egonomics'.

INTUITION

Intuition is the basic and essential means of reception to recognize messages from the Information layer of the Universe

Gary Zukov: Soul Stories

Intuition: We've all got it. Only some of us use it. Intuitive information passes through us all the time. We swim in a sea of it and it passes right through our bodies and through our organs of perception. Some say that the spleen is the main processor of this information but the whole body can pick it up. It then passes to the brain which acts as a sort of transformer – resending the information as feelings, visuals, audio, even smells, which are then filtered through the ego where the rational mind has the power to override incoming data. The intuition is a right-brain activity, whereas logic and reason are left-brain activities.

SACRED SITES DOWNLOAD

At that moment, sitting in the garden, it felt as if a little window popped up that said 'Download complete'. As I began to talk, using my hands to describe the images that came into my consciousness, I felt as if I was remembering something I intrinsically knew. I heard a simple instruction: Remember all that you know. I knew at that moment that this was possible and a channel flicked open in my mind.

TIME FOR WOMEN

What is the difference, mentally, between man and woman? Man is pretty good at rational logic and deductive thinking. He's good at building and making things as a result of his reasoning processes. He's good at seeing the steps involved. He can build a house and strategize for war, if he is so inclined.

DIMENSIONAL SHIFT

The simplest way to understand different dimensions is to think about a radio receiver, tuning into different wavebands. The official 'Government' waveband on Earth at this time is 3-D, the third Dimension. This is a fairly narrow, local waveband, its parameters being time and space and the speed of light. This is an empirical, logical dimension made up of dualities, like the 0-1 binary code of the computer.

FREQUENCY

All information is transmitted in wave undulation. Undulation describes the properties of frequency, wavelength, waveform and amplitude. There are many other properties of wave undulation, but in the present culture we are mainly concerned with these four which we use for practical applications. For example, when a TV channel broadcasts it produces and emits a specific undulation (wavelength, frequency, waveform and amplitude). We tend to call this simply 'frequency'.
